## Information

The small Afrikaans-speaking community has deep roots in the area and its members have adapted to the seasonal rhythms of farming life. Their valley, with its amphitheater of rugged mountains flanked by lush vines and evergreen citrus orchards, is nature at its very best.

## Producer Details

Country        South Africa  
Region         Citrusdal  
Established    2009

## About This Producer

The Six Hats range of Fairtrade wines was launched in 2009 and is one of a small, but growing range of South African Fairtrade Wines in the market. The Six Hats brand is built around a concept that seeks to highlight the various roles and responsibilities that are assumed by all parties involved in progressive and equitable wine farming. The six 'hats' are worn by both the farmer and the community and the results of these positive collaborations are borne out in the successes that have been seen on the farms to date.

The various roles have been summarized and are represented on our label by six elegantly illustrated hats. The Six Hats principles are Partnership, Change, Potential, Equity, Dignity and Sustainability.

The wines in the Six Hats Fairtrade range are single varietals and are produced in a fresh, fruit-forward style that is characteristic of the region. The dedicated Fairtrade farmers provide the grapes from their carefully managed vineyards. The viticulturalist works closely with the farmers through the growing season to ensure that the fruit that they produce is of the highest quality allowing the winemaker to produce wines with full flavor and rewarding character.
